

## NOTES:

- The drawing presents the results of a multibeam bathymetric survey conducted by David Evans and Associates, Inc. (DEA).
- Date of Survey: October 14-15, 2003.
- Horizontal Datum: North American Datum of 1983 (NAD83).
- State Plane Coordinate System (SPCS), Washington South Zone.
- Units: US Survey Feet.
- Vertical Datum: North American Vertical Datum of 1988 (NAVD83).
- Water surface elevations were obtained from a Real-Time Kinematic Global Positioning System (RTK GPS). An RTK GPS base station was deployed at control point 6753-43 to provide real-time GPS corrections. RTK corrections were applied to the stationing GPS for depths of water surface elevations at one-observation was used for connecting multibeam soundings to NAVD83 elevations.
- Contour Interval: 5 Feet. Contours were derived from a Digital Terrain Model (DTM) based on a grid of multibeam data.
- Uplink topology diagram was provided by Pyral Engineering, Inc.
- Existing cable alignment was provided by Pyral Engineering, Inc.
